Thanks for the leads. I don't think I have been on a geo field trip since field camp in '81. It sounds like a great time.

I will also contact the folks you detail.

Rich,

I don't know much about the tectonics around the Dimock area. However, there is a Pennsylvania geology field trip that will border your area of interest this fall (see letter below) (<http://fcopg.org/>). Also, Rose-Anna is a geologist with the Pennsylvania Geological Survey and she was one of the people mapping out the contact with the Catskill and Lockhaven Formations. She would be a good bet to get started and as a contact for other resources.

The Pennsylvania Geological Survey also has a fairly extensive series of Annual Field Conference guide books. Most of them are now on 1 or 2 CDs and may contain information you are looking for. There is also the 1999 Special Publication 1 "The Geology of Pennsylvania" edited by Charles H. Shultz. It provides a detailed summary about the geology of Pennsylvania. Within Part III Structural Geology and Tectonics is chapter 20 - Appalachian Plateaus by Richard W. Beardsley, Richard C. Campbell, and Maurice A. Shaw. It would provide some framework for the regional tectonic structure and further reading though the most recent cited reference is 1976. I think you can buy the CDs and publication (<http://www.dcnr.state.pa.us/topogeo/pub/costsp1.aspx>) from the state library.

There is also a magazine that comes out 2 - 4 times per year free on-line (beginning Spring 2009, v. 39 no.1) that talks about Pennsylvania Geology (<http://www.dcnr.state.pa.us/topogeo/pub/pageolmag/magindex.aspx>).

Gary Fleegeer gfleegeer@stat.pa.us is also a geologist with the state

I am not that familiar with what the USGS Geological Division has done in Pennsylvania.

Good luck and let me know if you find anything of use.

My apologies if you receive this more than once. I am working from multiple email lists and don't want to leave anyone out!

We are happy to announce the 77th Annual Field Conference of Pennsylvania Geologists meeting- "Journey along the Taconic Unconformity, Northeastern Pennsylvania, New Jersey, Southeastern New York". Attached you will find details about the meeting and the headquarters at Shawnee Inn at Shawnee on Delaware, PA. Please make reservations and submit your application and waiver soon to guarantee a seat on the bus!

Information can also be found at www.fcopg.org
